

ANNOUNCEMENTS

- 2 News

EDITORIAL

- 3 **Past4Future: European interdisciplinary research on past warm climate periods**
Dorthe Dahl-Jensen, E. Capron, P. Valleslonga and D. Roche

SCIENCE HIGHLIGHTS: GLACIAL TERMINATIONS AND INTERGLACIALS

- 4 **A new Last Interglacial temperature data synthesis as an improved benchmark for climate modeling**
Emilie Capron, A. Govin and E.J. Stone
- 6 **Widespread salinification of the North Pacific Ocean during the last glacial termination**
Laura Rodríguez-Sanz and P. Graham Mortyn
- 8 **Freshwater release and volcanic eruptions as drivers of abrupt changes during interglacial climate**
D.M. Roche, H. Renssen, C. Morrill, H. Goosse and A. Mairesse
- 10 **Multi-decadal temperature changes off Iberia over the last two deglaciations and interglacials and their connection with the polar climate**
Belen Martrat, P.C. Tzedakis, V. Margari, L.C. Skinner, D.A. Hodell and J.O. Grimalt
- 12 **Ice core-based isotopic constraints on past carbon cycle changes**
Hubertus Fischer, J. Schmitt, S. Eggleston, R. Schneider, J. Elsig, F. Joos et al.
- 14 **Two thousand years of boreal biomass burning recorded in the NEEM ice cores**
Natalie Kehrwald, P. Zennaro, S. Schüpbach, T. Kirchgeorg, J. R. McConnell et al.
- 16 **How to compare modeled fire dynamics with charcoal records?**
Tim Brücher, V. Brovkin, S. Kloster, J.R. Marlon and M.J. Power
- 18 **Modeling deep ocean flow speeds and $\delta^{13}\text{C}$ during the Last Interglacial: Towards a more direct model-data comparison**
Pepijn Bakker, A. Govin, D. Thornalley, D. Roche and H. Renssen
- 20 **Deep Atlantic variability during the last interglacial period**
Eirik V. Galaasen, U.S. Ninnemann, N. Irvál, H.F. Kleiven and C. Kissel
- 22 **The Agulhas Leakage: the missing link in the interhemispheric climate seesaw?**
Gianluca Marino and Rainer Zahn
- 24 **Sea-ice variability off West Greenland over the last five millennia derived from diatom assemblages**
Longbin Sha, H. Jiang, M-S. Seidenkrantz, K.L. Knudsen, J. Olsen and A. Kuijpers
- 26 **The Past4Future project: outreach and dissemination of results**
Dorthe Dahl-Jensen

WORKSHOP REPORTS

- 28 **Holocene climate change and its context for the future**
- 29 **Multiproxy approach to reconstruct the Pliocene climate**
- 30 **Deglacial Ocean Circulation and Carbon Cycling**
- 31 **Documenting past sea level and ice-sheet extent, and building databases**
- 32 **Climate Change and human impact in Central and South America over the last 2000 years**
- 33 **Indicators to address climate change impacts on marine ecosystems**
- 34 **Towards a spatiotemporal expansion of temperature and hydroclimatic proxy archives**

PROGRAM NEWS

- 35 **The online Varve Image Portal: A new tool for studying annually laminated sediments**
- 36 **Aquatic Transitions Working Group**
- 37 **Global Soil and Sediment transfers in the Anthropocene**
- 38 **LandCover6k: Global anthropogenic land-cover change and its role in past climate**
